archie norman house

the children's trust

Initial refurbishment of a former ward building to provide specialised care facilities for highly dependent children with acquired brain injuries. This substantial replacement new residential facility & hydrotherapy centre, primarily comprises of the following:

- bedrooms for up to 20 children
- multi-sensory bathrooms
- ceiling tracking and hoisting equipment
- an under-floor guided wheelchair mobility system
- 'Possum' system which allows children with even the slightest movement to control their environment
- piped oxygen and a nurse call system throughout
- facilities for families including a flat where parents can stay with their child
- indoor and outdoor play areas
- a multi-sensory room
- two separate dining areas, lounges and quiet rooms
- facilities for training external care teams
